FOR IMMEDIATE RELEASE: September 13, 2018

World Premiere of *Minerva Black and the Killer Robot Army*

Denver, Colorado -- Shocking Beyond Belief Films, the Sword of Truth Behind the Shield of Entertainment, is proud to announce the release of its latest film project - *Minerva Black and the Killer Robot Army*, a six-part serial in the vein of the old Saturday matinee cliffhanger serials (e.g., Flash Gordon).

In this comically fierce takedown of government's love of corporate money, a small-town newspaper reporter takes on a greedy corporation and its army of killer robots!

The film stars Denver actors Bevin Antea and Chris Hayes, as well as a best-of collection of Denver theater favorites, including Emma Messenger, Terry Burnsed, Jonathan E. Brown, Shannon Altner, Emily Paton Davies, Chris Kendall, Gina Wencel and more!

Audiences will have the opportunity to watch all six episodes back to back at the world premiere - a one-night only, two-screenings event. The premiere takes place on Wednesday, November 14, 2018, at Denver's [Bug Theatre](#) in north Denver. Screening times are 6:30 and 9 pm. The screenings will feature a short presentation and Q&A with the filmmakers, as well as prize giveaways! Matt Struck of [Really Late Night with Matt Struck](#) will emcee the event.

Tickets can be purchased at [ShockingBeyondBelief.com](#).

Following the world premiere, each new episode of the series will air weekly on [ShockingBeyondBelief.com](#) and [DenverOpenMedia.org](#) starting on Wednesday, November 21.

Shocking Beyond Belief Films is a joint effort by husband-and-wife team Ellen K. Graham (producer and screenwriter) and John Aden (director).
